FISCAL ANALYSIS

ASSUMPTION

Officials at the **Budget and Planning** assume this proposal provides a tax credit to small businesses that hire qualifying disabled persons or persons recently released from a correctional facility. The aggregate amount of credits available is \$10 million annually. Therefore, this proposal could reduce General and Total State Revenues by this amount.

Officials at the **Department of Revenue (DOR)** assume this proposal would require the ITSD-DOR to make programming changes to various tax systems as well as form changes. It is estimated to cost \$22,260 (840 FTE hours).

DOR's Personal Tax Division will need one Revenue Processing Technician I (\$25,380) per 4,000 credits. DOR's Corporate Tax Division will need one Revenue Processing Technician I (\$25,380) per 6,000 additional tax credit redemptions. DOR's Collections and Tax Assistance Division will need one Revenue Processing Technician I (\$25,380) per 15,000 additional contacts annually on the delinquent tax line and one Revenue Processing Technician I (\$25,380) per 15,000 additional contacts annually to the non-delinquent tax line. Additionally, Collections and Tax Assistance Division will need one Revenue Processing Technician I (\$25,380) per 4,800 additional contacts annual to the field office.

Oversight assumes OA-ITSD (DOR) is provided with core funding to handle a certain amount of activity each year. Oversight assumes OA-ITSD (DOR) could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, OA-ITSD (DOR) could request funding through the appropriation process.

Officials at the **Department of Elementary and Secondary Education** assume that tax subsidies reduce the state's tax revenues and decrease the amount of money available for public schools and public school students.

Officials at the **Department of Corrections, Joint Committee on Administrative Rules** and the **Missouri Veterans Commission** assume that there is no fiscal impact from this proposal.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that

ASSUMPTION (continued)

this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Oversight assumes this proposal establishes a \$10 million annual cap on the tax credit. Oversight will show in the fiscal note \$0 (no credits issued) to the annual \$10 million cap.

FISCAL IMPACT - Small Business

Small businesses that hire the identified persons could be eligible for the tax credit.

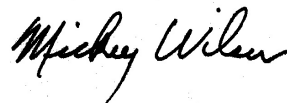

FISCAL DESCRIPTION

Beginning January 1, 2013, this bill authorizes an income tax credit of \$500 for each person a small business hires who is disabled or recently discharged from a state or federal correctional facility. The disabled individual, as defined in the bill, must be employed for at least one year with a minimum of 25 hours per week; and an individual recently discharged from a correctional facility must work at least one year for at least 40 hours per week before the small business will be eligible for the credit. The small business will be eligible for the credit for the first three years the individual recently discharged from a correctional facility is employed and for each year the disabled person is employed. The credit will be issued on a first-come, first-served basis and is not refundable or transferable but can be carried forward for three subsequent taxable years. No more than \$10 million of these credits can be issued in any fiscal year.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
